

“Online Event Management System”

A PROJECT REPORT

Submitted by

**Raval Rudresh – ET23MTCA119
Vaghasiya Jemish – ET23MTCA137
Bhatt Darshan – ET23MTCA071**

Under the Guidance Of

Prof. Jayana Ahuja

*In fulfillment for the subject Software Project-2
(MTCA16206)*

**Sarvajanik College Of Engineering & Technology, Surat
Master of Computer Application
May, 2024**

Sarvajanik College of Engineering & Technology, Surat.
Master of Computer Application Department
Academic Year 2023-24

Date: 17/05/2024

CERTIFICATE

This is to certify that the project entitled “Online Event Management System” has been submitted by Raval Rudresh (ET23MTCA119), Vaghasiya Jemish (ET23MTCA137) & Bhatt Darshan (ET23MTCA071) towards fulfillment for the subject Software Project – II (MTCA16206) in 2nd Semester of MCA of Sarvajanik University, Surat during the academic year 2023-24.

Guide Name: Prof. Jayana Ahuja

(Guide’s Signature)

Prof. Gayatri Kapadia
Head, M.C.A. Department

Examiners’ Signature:

1. _____

2. _____

Acknowledgement

Team Effort is the only key to success. Success cannot be achieved single-handedly. So, we would like to express our sincere thanks to all the dignitaries involved in making this project a great joy and turning it into a successful work.

We would like to take the opportunity to thank my college **Sarvajanik College of Engineering and Technology** for giving us this tremendous opportunity to work in the real-time project.

Prof. Jayana Ahuja our professor and project coordinator, has been very prudent to us throughout our college studies. He is the person who has been giving direction to our work and the shape of our imagination. We express our regards to him from the core of our hearts.

We also like to thank our Head of Department **Prof. Gayatri Kapadia** and all the professors who are always ready to give best guidance. They are the individuals who give solutions whenever required. We would also like to acknowledge all our friends and colleagues, team members for their help and encouragement from time to time. The constant support and encouragement of my friend deeply appreciates. The project indeed gave challenging and exhilarating experience in designing and developing the required system.

Finally, we would like to thank our parents for their support throughout the project. We owe a special debt to our family & friends for their supports blessing and encouragement for us.

Yours Sincerely,

Raval Rudresh (ET23MTCA119)

Vaghasiya Jemish (ET23MTCA137)

Bhatt Darshan (ET23MTCA071)

1. Introduction

1.1 Proposed System and Its Objectives

Event Management System is a place where user can book event ticket of his/her desired event and admin can add events and show on the site, particularly on the homepage.

Team Goals and Objective

- Objective: To allow users to create accounts and securely log in.
- System Feature: User registration form with validation, email verification, and secure login/logout functionality.

Browse Events

- Objective: To enable users to browse available event.
- System Feature: Event listing with details like Title, Description.

View Showtimes and Book Tickets

- Objective: To display showtimes for selected movies and facilitate ticket booking.
- System Feature: Showtime schedule based on theater selection, seat availability display, seat selection interface, and payment gateway integration for booking tickets.

Admin Dashboard

- Objective: To manage events, places, time, and user data efficiently.
- System Feature: Admin dashboard with CRUD operations for events, places, time, analytics dashboard for sales, bookings, and user activity.

Security and Payment

- Objective: To ensure data security and provide secure payment options.
- System Feature: HTTPS protocol, data encryption, secure authentication practices, PCI-compliant payment gateway integration for safe transactions.

1.2 Core Components

User Interface (UI)

- **Homepage:** Displays current movies, and search options.
- **Events Listing:** Provides detailed information about each event, including time, trailers, and place.
- **Booking Interface:** Allows users to View events on the home page and proceed to payment plans.
- **User Account:** Enables users to register, log in, manage bookings, and view past transactions.
- **Admin Panel:** Interface for managing events, places and time.

Database Management System (DBMS)

- Store data related to events, places, time, user accounts, bookings, and payments securely.
- Use a relational database like MySQL, PostgreSQL, or a NoSQL database like MongoDB, depending on your needs.

Authentication and Authorization

- Implement user authentication (login, logout, password reset) using secure protocols like Auth, or sessions.
- Set up roles and permissions for users (admin, regular user) to control access to different parts of the website.

Payment Gateway Integration

- Integrate a payment gateway (local payment provider) to process online payments securely.

View Events and its description

- Developed a system for users to view events on the site based on their preferences.
- Handles seat reservations, and cancellations with contacting an admin.

1.3 Minimum and Maximum Software/Hardware Requirements

User Side Requirements

Hardware:

- RAM – 8 GB and Above
- Processor – Intel i3 or Above
- Hard Disk – 128 GB or Above

Software:

- OS – Windows 10 or Above
- Required – Internet Connection
- Browser – Chrome, Edge and others

Admin Side Requirements

Hardware:

- RAM – 8 GB and Above
- Processor – Intel i3 or Above
- Hard Disk – 128 GB or Above

Software:

- Platform – PHP Laravel
- Database – MySQL Server
- Browser – Chrome, Edge and others

Editor:

- VS Code

1.4 Advantages and Limitations of the Proposed System

Advantages

- Provides Facility for Event Ticket Booking
- Booking from anytime and anywhere
- Upcoming Event Details
- View Event details with the images of the event

Limitations

- Internet Handling Charges.
- Admin can only view user.
- User can't get a notification for payment successful.

2. Requirement Determination & Analysis

2.1 Requirement Determination

2.1.1 Functional Requirements

❖ User Actions on Website

- **Account Creation:** Users should be able to create an account. Account creation should include mandatory fields for personal information and login credentials.
- **Search and Booking:** Users can search for events, view times, and complete the booking process.
- **Purchase:** Users can purchase event tickets.
- **Ticket Management:** Admin can view and manage all details, including payment details.

❖ Admin Actions on Website:

- **Manage Events:** Admins can add, edit, or remove event from the system, including details like title, description, images, ticket pricing, category, city, and dates.
- **Manage Start Date:** Admins can manage start date and pricing of the event.
- **User Management:** Admins can manage user accounts, view bookings, handle cancellations, and resolve user issues.
- **Analytics and Reporting:** Admins can access reports and analytics related to sales, bookings, user activity, and popular movies.

2.1.2 Non-Functional Requirements

❖ Availability:

- The system, including its online components (website, booking system, payment gateway), should be available 24/7 to handle user inquiries, bookings, and transactions without downtime.

❖ Security:

- **Data Security:** Implement data encryption to protect sensitive user information such as payment details, login credentials, and personal data.
- **User Authentication:** Use secure authentication mechanisms (e.g., Auth) for user login and session management to prevent unauthorized access.

❖ Performance:

- **Website Response Time:** Ensure fast loading times and responsive user interfaces to enhance user experience and reduce bounce rates.
- **Booking System Performance:** The booking system should handle concurrent users seamlessly without slowdowns or errors during peak periods.

❖ Maintainability:

- **Regular Updates:** The administrator should be able to update movie listings, showtimes, and other content regularly to keep the website current.
- **Bug Fixes and Maintenance:** Implement a process for identifying and resolving software bugs, system errors, and performance issues promptly.
- **Documentation:** Maintain documentation for system architecture, database schemas, APIs, and user manuals for ease of maintenance and future enhancements.

2.2 Targeted Users

❖ **In our website there are 2 targeted users.**

1. User

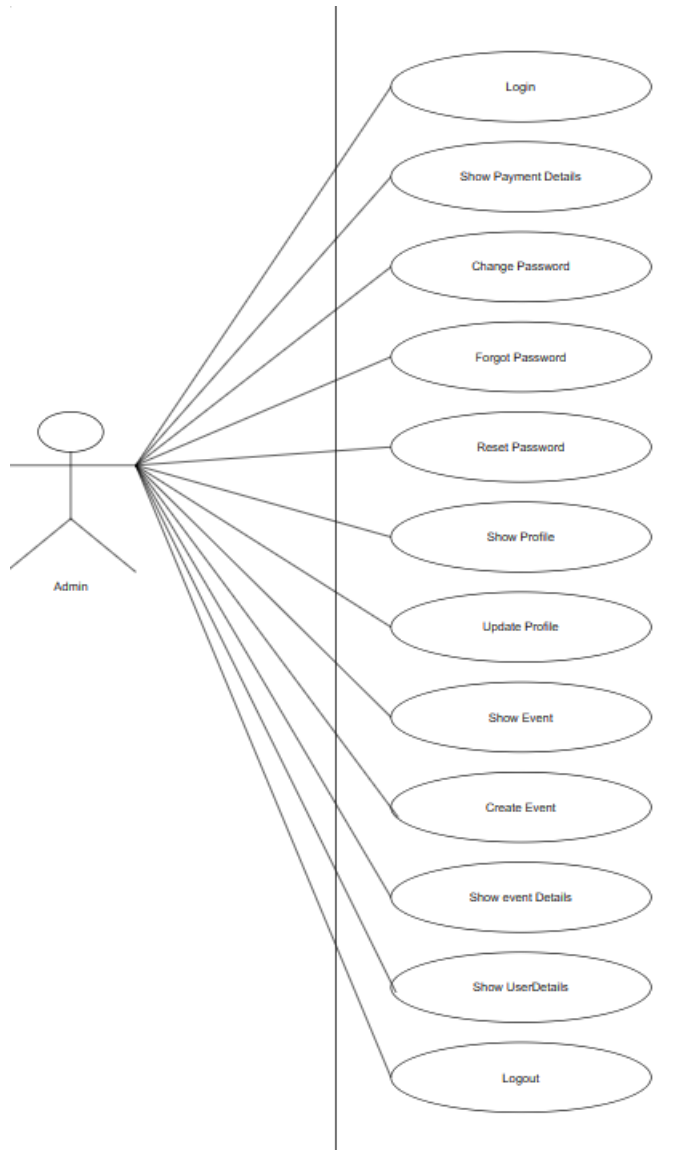

- Organizer
- User (Participants)

2. Admin

3. System Design

3.1 Use Case Diagram

❖ Use Case Diagram of Admin

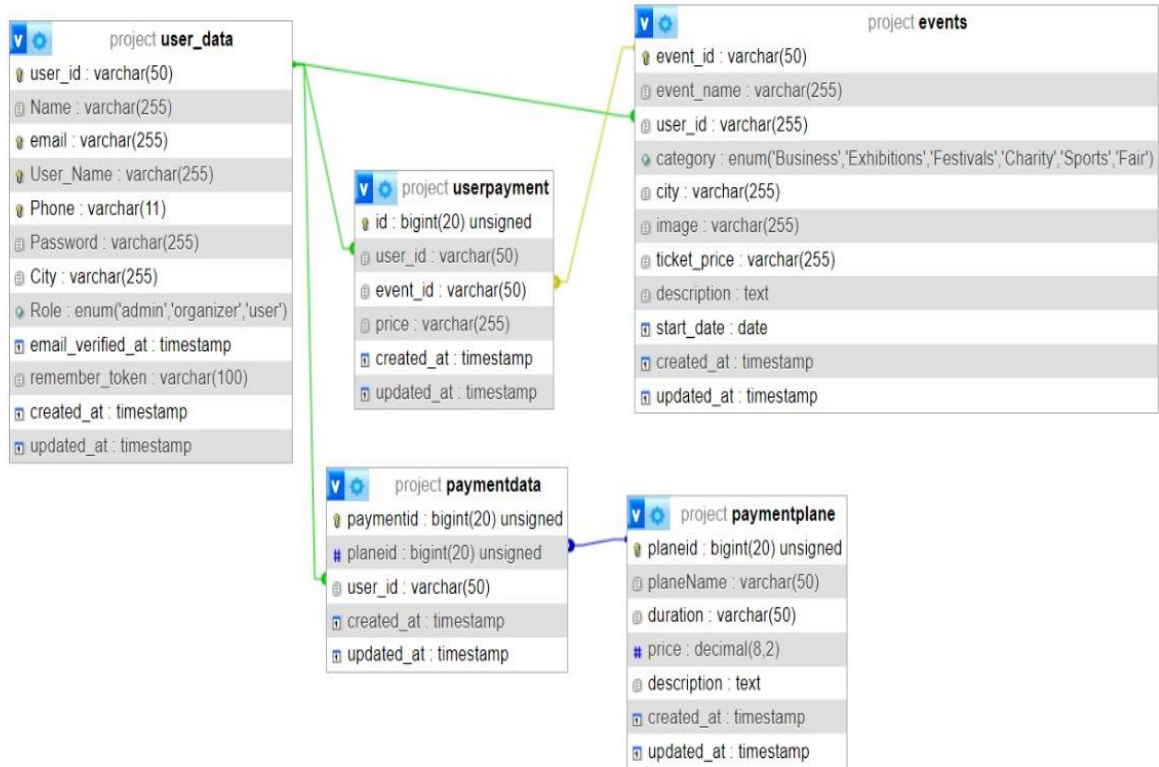

❖ Use Case Diagram of User

❖ Use Case Diagram of organizer

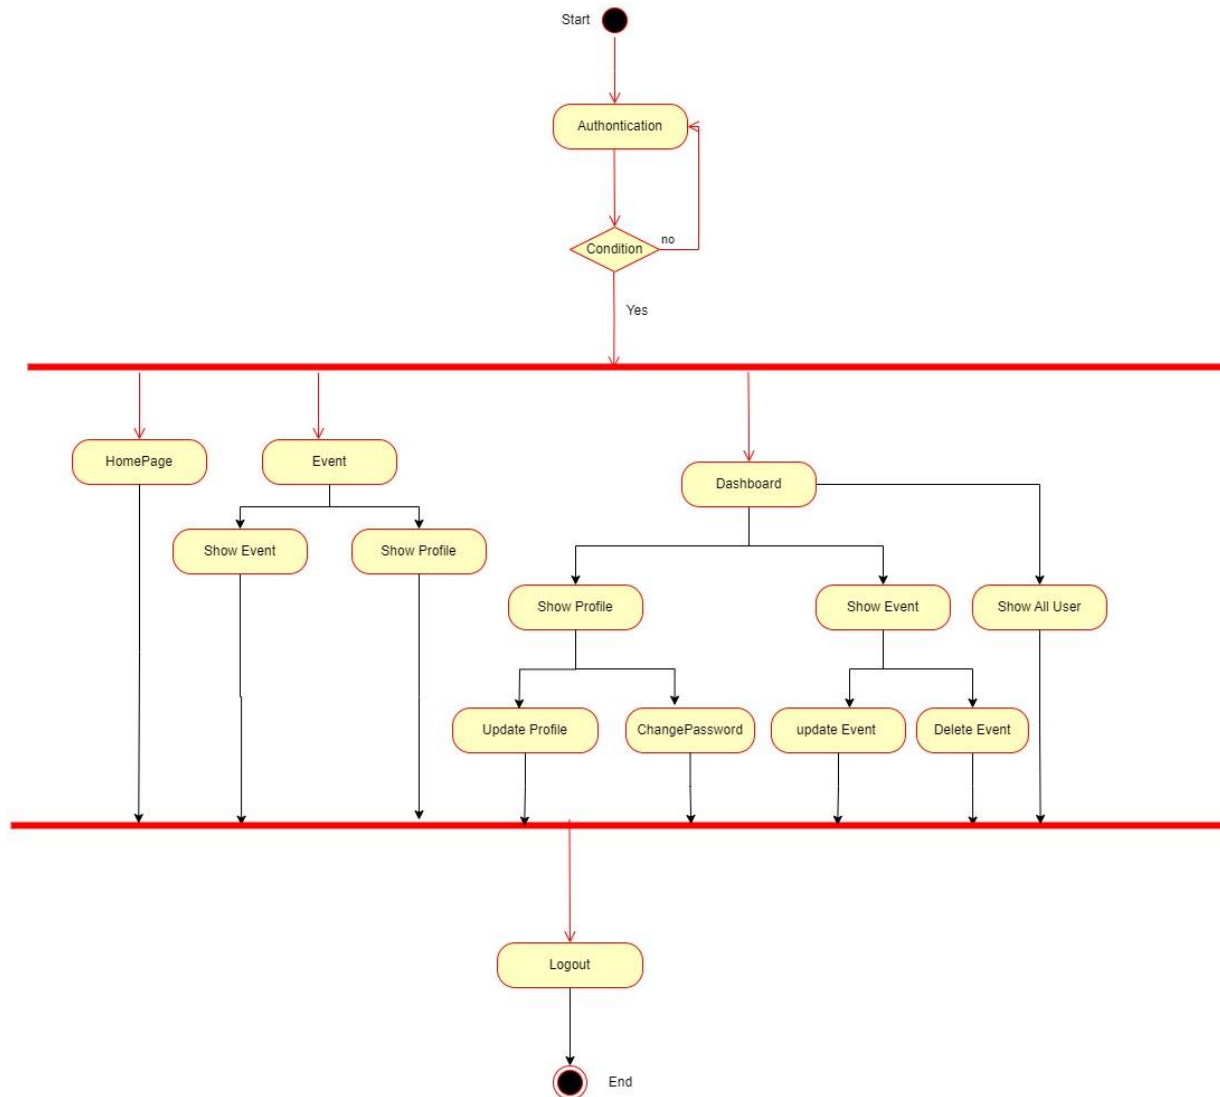

3.2 Class Diagram

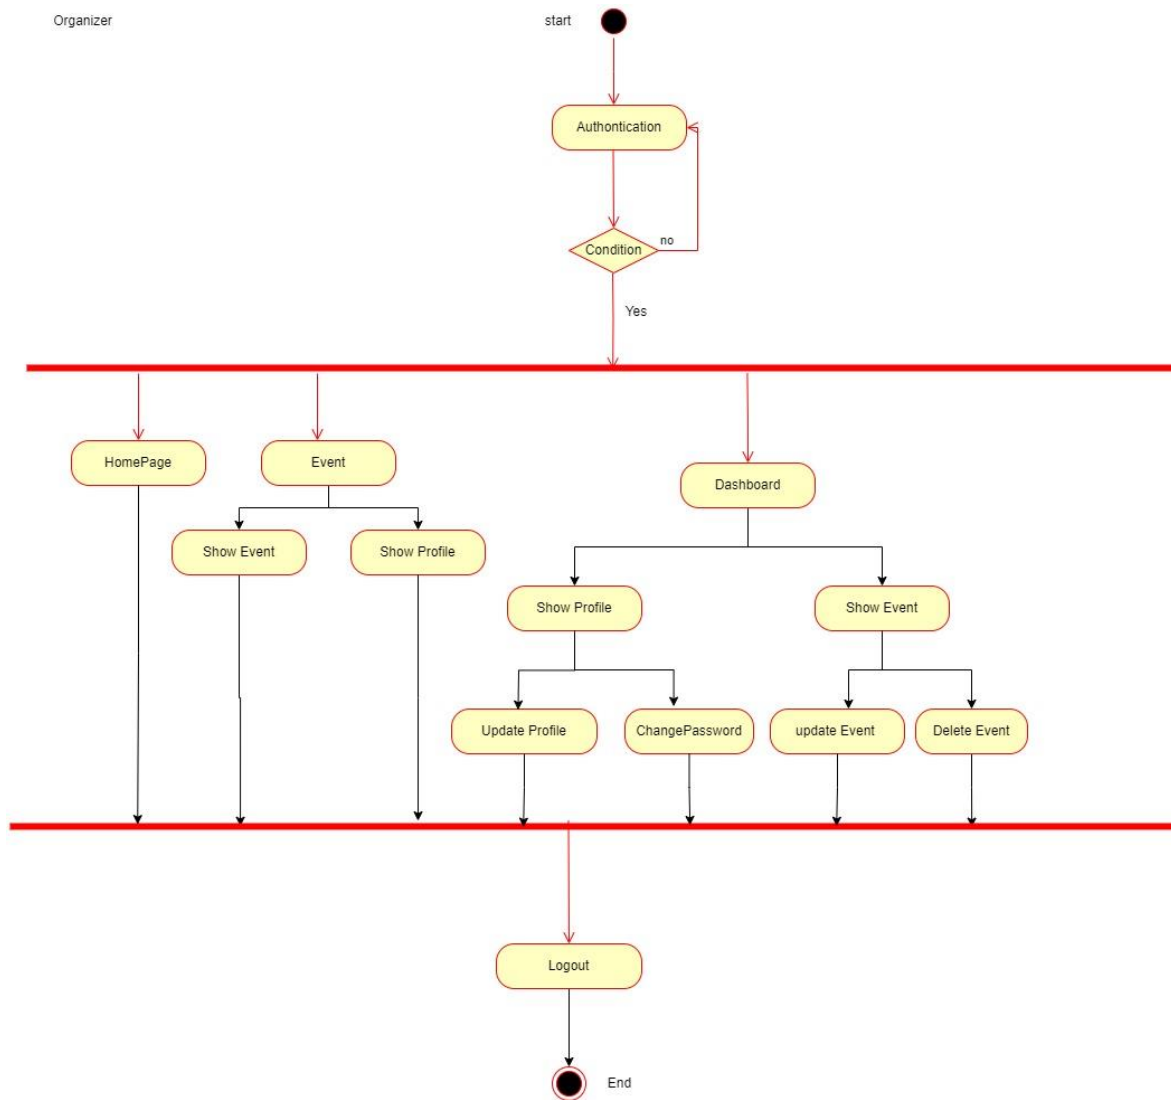

3.3 Activity Diagram

- Activity Diagram (Admin):

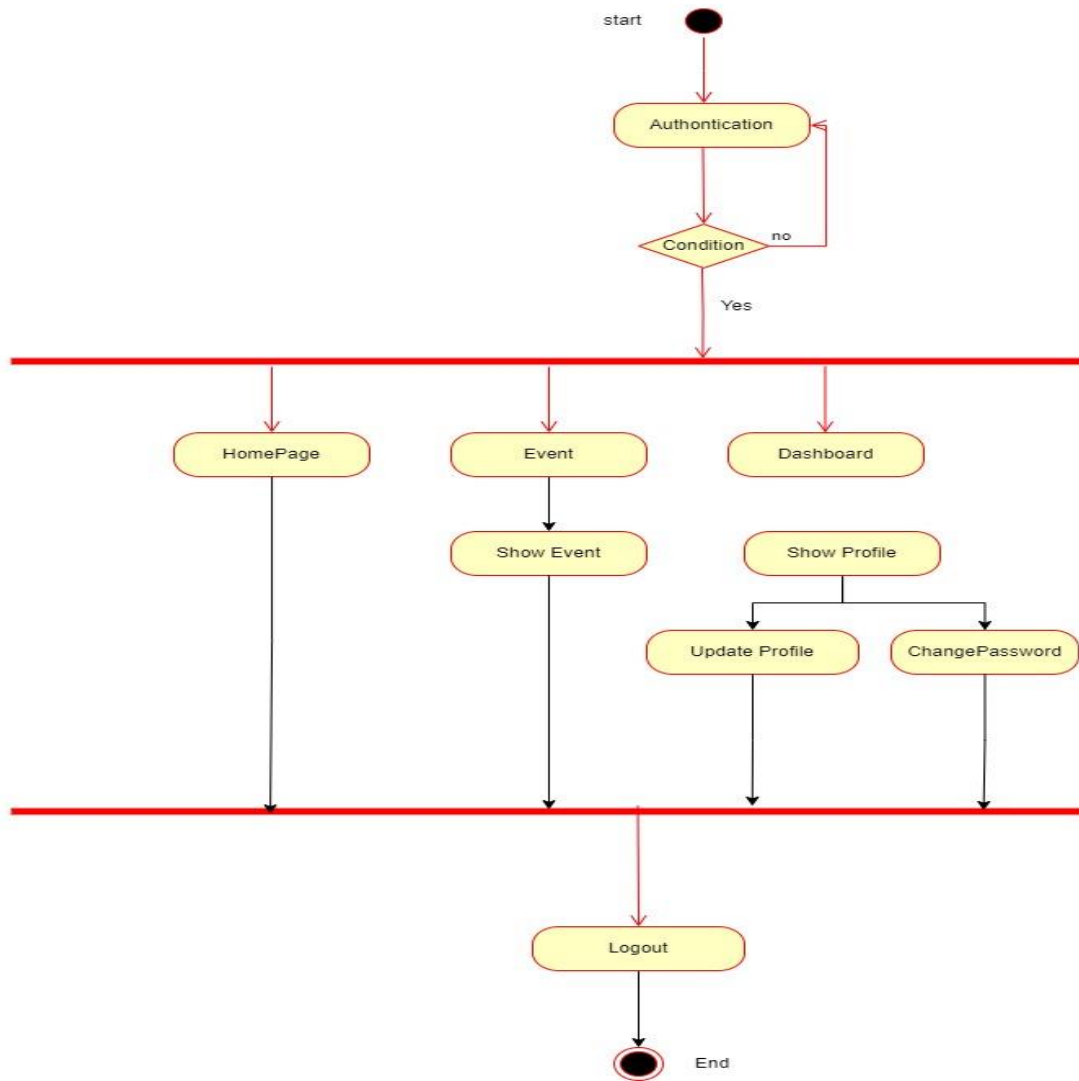

- Activity Diagram (Organizer):

- Activity Diagram (User):

user

3.4 Data Dictionary

❖ Table Name: user_data

Name	Data Type	Null	Default	Description
user_id (PK)	Varchar(50)	No		User ID
name	varchar (255)	No		User Name
email	varchar (255)	No		User Email
User_name	varchar (255)	No	Null	User's username
phone	varchar (11)	Yes	Null	User Phone
city	varchar (255)	No	0	User City
password	varchar (255)	No		User Password
Role	varchar(255)	No	admin, user	User Role

❖ Table Name: events

Name	Data Type	Null	Default	Description
Event_id (PK)	Varchar(50)	No		Event Id
Event_name	varchar (255)	No		Event Name
description	text	No		Description
Start_date	date	No		Start date
Category	varchar (255)	No	Business, Exhibition, Festivals, Charity, Sports, Fair	Event category
City	varchar (255)	No		Event City
ticket_price	varchar (255)	No		Ticket Price
image	varchar (255)	No		Event Image
created_at	timestamp	No		Created Time
updated_at	timestamp	No		Updated Time

❖ Table Name: paymentdata

Name	Data Type	Null	Default	Description
paymentid (PK)	bigint(20)	No		Payment ID

user_id	varchar (50)	No		User(payment) Name
----------------	--------------	----	--	-----------------------

❖ **Table Name: paymentplan**

Name	Data Type	Null	Default	Description
planid (PK)	bigint(20)	No		PaymentPlan Id
PlanName	varchar (50)	No		PaymentPlan Name
duration	varchar (50)	No		Plan Duration
price	decimal(8,2)	No		Plan Price
description	text	No		Plan Description
Created_at	timestamp	No		PlanCreation date
Updated_at	timestamp	No		PlanUpdated date

❖ **Table Name: userpayment**

Name	Data Type	Null	Default	Description
id (PK)	bigint(20)	No		Userpayment Id
User_id	varchar (50)	No		User Id
event_id_	varchar (50)	No		Event Id
price	Varchar(255)	No		Plan Price
Created_at	timestamp	No		PlanCreation date
Updated_at	timestamp	No		PlanUpdated date

4. Agile Documentation

4.1 Agile Project Charter

<u>General Project Information</u>	
Project Title	“Eventofie – Event Management ”
Project Developer	- Rudresh Raval - Darshan Bhatt - Jemish Vaghasiya
Expected Start Date	16 – Feb – 2024
Expected Completion Date	15 – May – 2024
Vision	To create an agile, user-friendly, and scalable online event ticket booking system that provides a seamless booking experience for users and efficient management tools for administrators.
Objective	1) Develop a responsive web platform for users to view and manage event tickets easily. 2) Integrate secure payment processing and authentication mechanisms for a safe and convenient transaction experience. 3) Implement an admin panel with robust functionalities for managing events, payment, time, user accounts, and analytics.
Organization	Sarvajanik College of Engineering and Technology (SCET)
Project Size Estimate	Small scale project in total roles is Admin, and User.
Key Stack Holder	Web Application – Laravel (PHP)
Approaches	Strategies, methodologies, processes, tools, and Techniques the team will follow.

4.2 Agile Project Plan

Task Name	Start Date	End Date	Days
Sprint 1			
Understand Laravel Frameworks Fundamentals. - Registration and login Page for admin - Registration and login Page for user	05-02-2024	15-02-2024	15
Sprint 2			
Database Designing	16-02-2024	28-02-2024	13
Sprint 3			
Understanding Payment API handling	01-03-2024	15-03-2024	15
Sprint 4			
Develop Payment Module	16-03-2024	30-03-2024	15
Sprint 5			
Develop Dashboards - Admin - User - Organizer	01-04-2024	15-04-2024	15
Sprint 6			
Develop Payment Plans	16-04-2024	30-04-2024	15

Sprint 7			
User Purchase Tickets Module	01-05-2024	05-05-2024	4

4.3 Agile User Story (Minimum 3 Tasks)

❖ User Story (Admin):

Add New Event	
Title:	Add New Events to the System
User Story	As an admin, I want to add new events to the system so that users can book tickets for upcoming events.
Acceptance Criteria	Given that I am logged in as an admin, When I navigate to the admin panel's event management section, Then I should see an option to add a new event as per organizer's wish with fields for title, date, venue, and description.

Manage Event dates	
Title:	Manage Showtimes for Movies
User Story	As an admin, I want to manage dates for events so that users can book tickets for specific dates as per their convenience.
Acceptance Criteria	Given that I am logged in as an admin, When I navigate to the dates management section in the admin panel, Then I should be able to view existing dates on which events are ongoing, add new events with dates, edit dates, and delete events with their respective dates as needed.

View Analytics	
Title:	View detailed analytics on event attendance, ticket sales, and user activity.
User Story	As an admin, I want to view detailed analytics So that admin can understand user behavior.
Acceptance Criteria	Given that I am logged in as an admin, When I access the analytics section in the admin panel, Then I should see reports of ticket sales.

❖ User Story (User):

View Events	
Title:	Browse and Search for available events.
User Story	As a user, I want to browse through a list of events and select the ones I'm interested in, so that I can view their dates and book tickets.
Acceptance Criteria	Given that I am on the home page of the website, When I navigate to the events section, Then I should see a list of available events with titles, posters, and brief descriptions.

Book Event Tickets	
Title:	Book Event Tickets
User Story	As a user, I want to be able to book event tickets for a selected date, so that I can secure my seats in advance.
Acceptance Criteria	Given that I am viewing the details of an event with available dates, When I select an event and click on the purchase, Then I should proceed to payment screen. When I book the seat, Then I should receive a confirmation email and see a confirmation message on the website.

Register for Events	
Title:	Register for events and purchase tickets.
User Story	As a user, I want to register for events and purchase tickets, So that I can pay for my purchased tickets and if needed I can cancel that ticket also.
Acceptance Criteria	Given that I am logged in to my user account, When I navigate to the site home page, Then I should see events on the site and if I want to participate any event I have to register for that event and purchase the ticket of that event.

4.4 Agile Release Plan

Task Name	Start Date	End Date	Days	Status
Sprint 1	05-02-2024	15-02-2024	15	Realized
Sprint 2	16-02-2024	28-02-2024	13	Realized
Sprint 3	01-03-2024	15-03-2024	15	Realized
Sprint 4	16-03-2024	30-03-2024	15	Realized
Sprint 5	01-04-2024	15-04-2024	15	Realized
Sprint 6	16-04-2024	30-04-2024	15	Realized
Sprint 7	01-05-2024	05-05-2024	4	Realized

4.5 Agile Spring Backlog

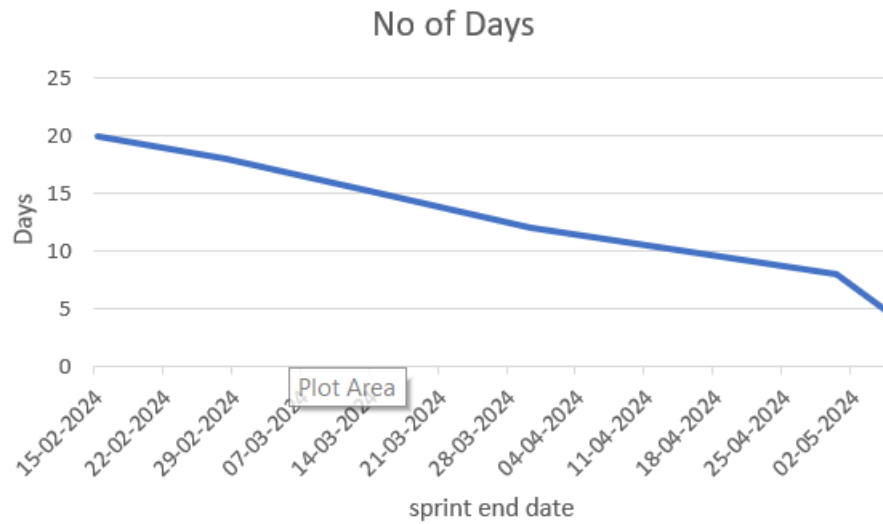

Task Name	Start Date	End Date	Days
Project Documentation	01-05-2024	03-05-2024	3
Project Updates	03-05-2024	13-05-2024	9
Reports for Project	13-05-2024	15-05-2024	3

4.6 Agile Test Plan

Date	Test	Description	Expected Result	Actual Result	Passed	Tested By	Tester Comm.
01-05-24	1	Simple CRUD using Laravel	Should Manage CRUD	As Expected	Passed	Apurv Patel	No Issues
02-05-24	2	User Login	Login Success redirects user to Home Page.	As Expected	Passed	Meet Kapuriya	No Issues
05-05-24	3	User Profile	Should Manage User Profile	As Expected	Passed	Ashish Tank	No Issues
05-05-24	4	Admin Profile	Should Manage Admin Profile	As Expected	Passed	Meet Kapuriya	No Issues
07-05-24	5	User Dashboard	Should Manage all Events	As Expected	Passed	Ashish Tank	No Issues
08-05-24	6	Admin Dashboard	Admin Dashboard enables all Events & Venues	As Expected	Passed	Apurv Patel	No Issues
09-05-24	7	Forgot Password	Forgot Password initiate password reset using registered email.	As Expected	Passed	Ashish Tank Meet Kapuriya	No Issues
10-05-24	8	Book Tickets	To proceed with book tickets, the user must already be logged into the website.	As Expected	Passed	Apurv Patel	No Issues
Date	Test	Description	Expected Result	Actual Result	Passed	Tested By	Tester Comm.
10-05-24	9	Manage Events	Admin can manage Event details like title, date, venue, and description.	As Expected	Passed	Meet Kapuriya Ashish Tank	No Issues

11-05-24	10	View Description	Should manage Description for events.	As Expected	Passed	Apurv Patel	No Issues
----------	----	---------------------	---	----------------	--------	----------------	--------------

Rango Ki Holi Festivals

The Holi festival, also known as the Festival of Colors or the Festival of Love, is a vibrant and joyous celebration observed primarily in India and among Indian communities around the world. It typically takes place in March, marking the arrival of spring and the triumph of good over evil. Holi is renowned for its exuberant and colorful festivities, where people of all ages come together to drench each other in brightly colored powders and water. The throwing of colored powders, known as "gulal," symbolizes the triumph of love, joy, and unity over hatred and negativity. The festival also holds religious significance, rooted in Hindu mythology. It commemorates various legends, including the story of Prahlad and Holika, which symbolizes the victory of devotion and righteousness over tyranny and deceit. The Holi festival, also known as the Festival of Colors or the Festival of Love, is a vibrant and joyous celebration observed primarily in India and among Indian communities around the world. It typically takes place in March, marking the arrival of spring and the triumph of good over evil. Holi is renowned for its exuberant and colorful festivities, where people of all ages come together to drench each other in brightly colored powders and water. The throwing of colored powders, known as "gulal," symbolizes the triumph of love, joy, and unity over hatred and negativity. The festival also holds religious significance, rooted in Hindu mythology. It commemorates various legends, including the story of Prahlad and Holika, which symbolizes the victory of devotion and righteousness over tyranny and deceit.

6. Proposed Enhancements

- ❖ We propose a set of enhancements for our online Event Management website that will enhance user experience and streamline the event creation and management process. Introducing new features and improvements, users can enjoy a seamless and convenient way to attend their desired event.
 - **Enhanced User Experience:**
 - **Improved UI/UX Design:** Revamp the user interface to make it more intuitive and visually appealing. Implement responsive design for better usability across various devices.
 - **User Feedback Mechanism:** Introduce a feedback system where users can rate events and provide reviews, helping organizers improve future events.
 - **Advanced Event Management:**
 - **Event Analytics:** Provide organizers with detailed analytics on event attendance, ticket sales, and user demographics. This data can help organizers make informed decisions for future events.
 - **Automated Reminders and Notifications:** Implement automated email and SMS reminders for event registration, upcoming events, and payment confirmations. Notifications can also include event updates and announcements.
 - **Enhanced Payment System:**
 - **Multiple Payment Options:** Integrate additional payment gateways to support a variety of payment methods, including credit/debit cards, digital wallets, and bank transfers.
 - **Subscription and Membership Plans:** Offer subscription-based or membership plans for frequent event organizers or participants, providing them with benefits such as discounts or early access to events.
 - **Admin Tools:**
 - **Advanced User Management:** Implement advanced search and filter options in the admin panel to efficiently manage user data.
 - **Audit Logs:** Maintain detailed audit logs of all actions performed by admins, organizers, and users for transparency and security purposes.

7. Conclusion

- ❖ This Event Management System is a comprehensive solution tailored for efficient event planning and participation. By accommodating different roles with specific access and functionalities, it offers flexibility and control to organizers and admins while providing an engaging platform for users. The system's secure, scalable, and user-friendly design ensures that it meets the needs of modern event management, making it an invaluable tool for successful event planning and execution.
